CAREER OBJECTIVE

Motivated and passionate Diploma IT student (Final Year) with hands-on experience building full-stack, production-deployed web applications. Seeking a MERN Stack or Web Development role within pharmaceutical and life sciences organizations to contribute to digital health platforms, clinical data systems, and healthcare information portals while growing toward a B.Tech (Lateral Entry, 2nd Year).

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive & Mobile-First Design
Backend: Node.js, Express.js, REST API Development, Flask (Python)
Database: MongoDB (Atlas), MySQL (Basic), Firebase Realtime Database
AI & Integration: AIML (Learning), Payment Gateway (Razorpay), Claude AI
Tools & Platforms: Git, GitHub, GitHub Actions (CI/CD), VS Code, npm, Postman, Vercel, Firebase, Render
Domain Relevance: Full-Stack SaaS Development, AI-Integrated Systems, Automated Deployment Pipelines
Languages: Python, C, C++, JavaScript **Currently Learning:** DSA, REST APIs, AI/ML

PROJECTS

- College ERP Web & Mobile App** – Full-Stack College Management System | [Live Link](#) 2024 – 2025
- Built a production-grade, full-stack College ERP system using **MERN Stack, AI, and Flask** — managing student records, schedules, and institutional data, directly paralleling clinical data management systems used in pharma organizations.
 - Deployed frontend on **Vercel** and backend on **Render**; automated Android APK builds via **GitHub Actions CI/CD pipeline**, demonstrating DevOps awareness critical for regulated software environments.
 - Integrated AI features to assist with data processing and user interactions, showcasing readiness for AI-augmented healthcare platforms.
- Azis-Invites** – Real-World Business Website with Payment Integration | [Live Link](#) 2024
- Designed and deployed a fully responsive business web platform with **Razorpay payment gateway** integration, Firebase database, dark/light mode toggle, and smooth animations — demonstrating ability to build customer-facing, transactional web products.
 - Applicable to pharma e-commerce, patient portal, or digital health product development contexts.
- Personal Portfolio Website** | [Live Link](#) 2024
- Developed a fully responsive portfolio with animations, dark/light mode, and mobile-first design; deployed on both Firebase and Vercel — showcasing multi-platform deployment proficiency.

EDUCATION

- Diploma in Information Technology (Final Year – 3rd Year)** 2023 – 2026
Govt. Kalaniketan Polytechnic College, Jabalpur, MP (RGPV)
– Pursuing B.Tech in Computer Science via Lateral Entry (from 2nd Year) upon completion.
- Secondary School (10th Standard – First Division)** 2022 – 2023
Kshitij Model School, Jabalpur, MP (MP Board)

CERTIFICATIONS & TRAINING

- Web Development Training** – GOUNICREW |
Web Development Training – CEDMAP |
MERN Stack Development – TUTEDUDE |
Python – Online (YouTube / Self-study) |
C++ / C – Self-Learning |
Git & GitHub – Self-Learning |

SOFT SKILLS & STRENGTHS

- Passionate about building clean, user-friendly web interfaces | Quick learner with strong problem-solving mindset
Self-motivated with hands-on production project experience | Adaptable to new technologies and fast-paced environments quad
